## DK

USS Constitution er et tremastet tung fregat med træ-skrog, af den amerikanske flåde. Navngivet af præsident George Washington efter forfatningen af USA, er hun verdens ældste flydende idriftsatte flådefartøj. Søsat i 1797, på Grundlovsdag var hun en af de oprindelige seks fregatter, godkendt bygget af Naval Act of 1794. Joshua Humphreys designede fregatterne til at være den unge flådes kapital skibe, så Constitution og hendes søsterskibe var større og mere svært bevæbnede og bygget end standard fregatter af perioden. Bygget i Boston, Massachusetts hos Edmund Hartt værftet. Hendes første opgaver med den nydannede amerikanske flåde var at yde beskyttelse for amerikanske handelsskibe under Kvasi-krigen sammen med Frankrig og besejre Barbary pirater i den første Barbary krig.

Constitution er mest kendt for hendes handlinger under krigen i 1812 mod Storbritannien, da hun erobrede talrige handelsskibe og besejrede fem britiske krigsskibe: HMS Guerriere, Java, Pictou, Cyane og Levant. Kampen med Guerriere gav hende øgenavnet „Old Ironsides“ samt offentlige anerkendelse, som gentagne gange har reddet hende fra ophugning. Hun fortsatte aktivt med at tjene nationen som flagskib i Middelhavet og afrikanske eskadriller, og cirklede verden i 1840'erne. Under den amerikanske borgerkrig fungerede hun som skoleskib for USA Naval Academy og sejlede kunst og industrielle udstillinger til Paris Expo i 1878. Hun trak sig tilbage fra aktiv tjeneste i 1881, hvor hun tjente som modtager skib, indtil hun blev udpeget som museumsskib i 1907. I 1931 startede hun en treårig 90-havne rundtur i nationen, og i 1997 sejlede hun endelig igen under egen kraft til hendes 200 års fødselsdag.

## GB

USS Constitution is a wooden-hulled, three-masted heavy frigate of the United States Navy. Named by President George Washington after the Constitution of the United States of America, she is the world's oldest floating commissioned naval vessel. Launched in 1797, Constitution was one of six original frigates authorized for construction by the Naval Act of 1794. Joshua Humphreys designed the frigates to be the young Navy's capital ships, and so Constitution and her sisters were larger and more heavily armed and built than standard frigates of the period. Built in Boston, Massachusetts at Edmund Hartt's shipyard, her first duties with the newly formed United States Navy were to provide protection for American merchant shipping during the Quasi-War with France and to defeat the Barbary pirates in the First Barbary War.

Constitution is most famous for her actions during the War of 1812 against Great Britain, when she captured numerous merchant ships and defeated five British warships: HMS Guerriere, Java, Pictou, Cyane and Levant. The battle with Guerriere earned her the nickname of “Old Ironsides” and public adoration that has repeatedly saved her from scrapping. She continued to actively serve the nation as flagship in the Mediterranean and African squadrons, and circled the world in the 1840s. During the American Civil War she served as a training ship for the United States Naval Academy and carried artwork and industrial displays to the Paris Exposition of 1878. Retired from active service in 1881, she served as a receiving ship until designated a museum ship in 1907. In 1931 she started a three year 90-port tour of the nation, and in 1997 she finally sailed again under her own power for her 200th birthday.

## D

Die USS Constitution ist eine hölzerne, dreimastige, schwere Fregatte der United States Navy. Von Präsident George Washington nach der Verfassung der Vereinigten Staaten von Amerika benannt, ist sie das älteste schwimmfähige und noch im Dienst stehende Marineschiff der Welt. Die Constitution lief 1797 vom Stapel und war eine der ersten sechs Fregatten, die aufgrund des Marinegesetzes von 1794 gebaut wurden. Die von Joshua Humphreys entworfenen Fregatten sollten der jungen amerikanischen Marine als Hauptkriegsschiffe dienen. Die Constitution und ihre Schwesterschiffe waren daher größer, schwerer bewaffnet und stärker gebaut als die Standardfregatten jener Zeit. Sie wurden auf der Werft des Edmund Hartt in Boston, Massachusetts, gefertigt und ihre ersten Aufgaben innerhalb der neu gegründeten Marine der Vereinigten Staaten bestanden darin, amerikanische Handelsschiffe im Quasi-Krieg mit Frankreich zu schützen und die Korsaren im ersten Barbareskenkrieg zu bezwingen.

Die Constitution wurde vor allem wegen ihrer Aktionen gegen Großbritannien im Krieg von 1812 berühmt, als sie zahlreiche Handelsschiffe aufbrachte und fünf britische Kriegsschiffe, die HMS Guerriere, HMS Java, HMS Pictou, HMS Cyane und HMS Levant, besiegte. Die Schlacht mit der Guerriere brachte ihr den Spitznamen Old Ironsides und eine öffentliche Bewunderung ein, die sie wiederholt vor der Abwrackung bewahrte. Sie diente den USA weiterhin aktiv als Flaggschiff des Mittelmeer- und Afrika-Geschwaders und unternahm in den 1840er Jahren eine Weltumsegelung. Während des amerikanischen Bürgerkrieges diente die Constitution als Trainingsschiff für die United States Naval Academy (Marineakademie der Vereinigten Staaten). 1878 brachte sie Kunst- und Industrieexponate zur Weltausstellung nach Paris. Nach Außerdienststellung 1881 diente sie als schwimmende Kaserne und danach ab 1907 als Museumsschiff. 1931 unternahm sie eine dreijährige Tour zu 90 Hafenstädten der USA und 1997 stand sie schließlich aus Anlass ihres 200. Geburtstages wieder aus eigener Kraft unter Segeln.

**F**

USS Constitution est une frégate lourde à trois mats, à la coque en bois, de la Marine de Guerre des États Unis. Baptisée sous ce nom par le Président George Washington après la Constitution des États Unis d'Amérique, elle est le plus ancien navire flottant en service au monde. Lancée en 1797, Constitution était l'une des six frégates originales dont la construction avait été autorisée par la Naval Act de 1794. Joshua Humphreys conçut les frégates pour être les navires les plus importants de la jeune Marine de Guerre. Constitution et ses sœurs étaient donc plus grandes et plus lourdement armées et construites que les frégates standards de l'époque. Construite à Boston, Massachusetts, dans le chantier naval d'Edmund Hartt, ses premières missions avec la Marine récemment créée des États Unis étaient de fournir une protection à la marine marchande américaine durant la Quasi-guerre avec la France et de repousser les corsaires barbaresques lors de la Première guerre barbaresque.

Constitution est très célèbre pour ses actions durant la Guerre de 1812 contre la Grande Bretagne, où elle captura de nombreux navires marchands et vainquit cinq bâtiments de guerre britanniques : HMS Guerriere, Java, Pictou, Cyane et Levant. La bataille avec Guerriere lui valut son surnom de « Old Ironsides » ainsi que l'adoration du public qui la sauva à plusieurs reprises de la casse. Elle a continué à servir activement la nation comme navire-amiral dans les escadres méditerranéennes et africaines et elle a fait le tour du monde dans la décennie de 1840. Durant la Guerre civile américaine, elle a servi de navire d'entraînement pour l'Académie Navale des États Unis et transporté des œuvres d'art et des produits industriels à l'Exposition de Paris de 1878. Retirée du service actif en 1881, elle servit de navire de réception jusqu'à sa désignation comme navire musée en 1907. En 1931, elle commença un tour de la nation de trois ans avec la visite de 90 ports, et en 1997 elle reprend finalement la mer par ses propres moyens pour son 200<sup>ème</sup> anniversaire.

**NL**

De USS Constitution is een driemast fregat met houten romp van de Amerikaanse marine en zo genoemd door president George Washington naar de naam van de grondwet van de Verenigde Staten van Amerika. Ze is ,s werelds oudste nog drijvende marineschip en werd in 1797 te water gelaten. De Constitution was één van zes originele fregatten, goedgekeurd voor constructie door de Naval Act van 1794. Joshua Humphreys ontwierp de fregatten als de belangrijkste schepen voor de nog jonge marine, en daarom werden de Constitution en haar zusterschepen groter en zwaarder bewapend dan de standaard fregatten van die periode. Gebouwd in Boston, Massachusetts bij Edmund Hartt' s scheepswerf, waren haar eerste taken bij de nieuw gevormde U.S. Navy het verlenen van bescherming aan de Amerikaanse koopvaardijschepen tijdens de Quasi-Oorlog met Frankrijk en het verslaan van de Barbarijse piraten in de Eerste Barbarijse Oorlog.

De Constitution is het meest bekend door haar daden tijdens de oorlog van 1812 tegen Groot-Brittannië, toen ze een groot aantal koopvaardijschepen veroverde en ze versloeg vijf Britse oorlogsschepen: HMS Guerriere, Java, Pictou, Cyane en Levant. Door het gevecht met HMS Guerriere kreeg zij de bijnaam „Old Ironsides“ en door de publieke bewondering werd ze herhaaldelijk van de sloop gered. Ze bleef in actieve dienst als vlaggeschip van de eskaders in de Middellandse Zee en bij Afrika en ze voer rond de wereld in de jaren 1840. Tijdens de Amerikaanse Burgeroorlog diende zij als een opleidingsschip voor de U.S. Naval Academy en vervoerde kunstwerken en industriële displays naar de Wereldtentoonstelling van 1878 in Parijs. In 1881 werd ze teruggetrokken uit actieve dienst en in 1907 ingericht als museum-schip. In 1931 startte ze een drie jaars 90-havens tour en in 1997 voer ze eindelijk weer onder haar eigen kracht voor haar 200e verjaardag.

**E**

USS Constitution es una fragata pesada de casco de madera y tres mástiles de la Armada de los Estados Unidos. Bautizada por el Presidente George Washington en honor de la Constitución de los Estados Unidos de América, es el navío de guerra que sigue en servicio y a flote más antiguo del mundo. Botado en 1797, Constitution fue una de las seis fragatas cuya construcción se autorizó mediante la Naval Act de 1794. Joshua Humphreys diseñó estas fragatas para que fuesen las naves principales de la joven Navy, y por ello Constitution y sus buques hermanos eran mayores y estaban mejor armados y eran de construcción más pesada que las fragatas estándares de su época. Construida en Boston, Massachusetts, en los astilleros de Edmund Hartt, sus primeras misiones para la recién creada Armada de los Estados Unidos fueron ofrecer protección para los barcos mercantes de los Estados Unidos durante la Cuasi Guerra con Francia y derrotar a los piratas berberiscos en la Primera Guerra Bereber.

Constitution es más famoso por sus acciones durante la Guerra de 1812 contra Gran Bretaña, en la que capturó numerosos barcos mercantes y derrotó a cinco navíos de guerra británicos: HMS Guerriere, Java, Pictou, Cyane y Levant. La batalla con el Guerriere le sirvió para ganarse el sobrenombre de "Old Ironsides", y la adoración pública de que disfrutó le salvó en repetidas ocasiones del desguace. Continuó sirviendo activamente a la nación como buque insignia en las escuadras del Mediterráneo y África, y completó la vuelta al mundo en los años 40 del siglo XIX. Durante la Guerra de Secesión sirvió como buque escuela de la Academia Naval de los Estados Unidos y transportó obras de arte y presentaciones industriales para la Exposición Universal de París de 1878. Fue retirado del servicio activo en 1881, aunque continuó sirviendo como buque de recepción hasta que fue designado como buque museo en 1907. En 1931 inicio un recorrido de tres años por 90 puertos de la nación y en el año 1997 volvió a navegar de nuevo por su propio esfuerzo para conmemorar el bicentenario de su botadura.

## I

La USS Constitution è una fregata pesante a tre alberi con scafo in legno della Marina degli Stati Uniti. Battezzata dal Presidente George Washington in omaggio alla Costituzione degli Stati Uniti d'America, è la più vecchia nave in servizio galleggiante al mondo. Varata nel 1797, la Constitution fu una delle sei fregate originali la cui costruzione fu autorizzata dall'Atto Navale del 1794. Progettate da Joshua Humphreys per essere le navi di punta della nascente Marina, la Constitution e le sue sorelle erano più grandi, meglio armate e più resistenti delle fregate standard dell'epoca. Costruita a Boston, nel Massachusetts, nel cantiere navale di Edmund Hartt, le sue prime missioni per la neonata Marina statunitense furono di proteggere i trasporti mercantili americani durante la guerra non dichiarata con la Francia e di sconfiggere i pirati della Barberia nella prima guerra barbaresca.

La Constitution è famosa soprattutto per le azioni svolte durante la Guerra del 1812 contro il Regno Unito, quando conquistò diverse navi mercantili e sconfisse cinque navi da guerra britanniche (la HMS Guerriere, la Java, la Pictou, la Cyane e la Levant). La battaglia contro la Guerriere le è valso il soprannome di "Old Ironsides" ("vecchia corazzata") e l'affetto della gente, che l'ha salvata più volte dalla demolizione. La Constitution continuò attivamente il servizio come nave ammiraglia nelle squadre del Mediterraneo e dell'Africa e fece il giro del mondo poco dopo il 1840. Durante la Guerra Civile Americana servì come nave scuola per l'Accademia Navale statunitense e trasportò opere d'arte e beni industriali all'Esposizione Universale di Parigi del 1878. Ritirata dal servizio attivo nel 1881, fu usata come nave di alloggio temporaneo per marinai neofiti finché non venne destinata a museo nel 1907. Nel 1931 iniziò un tour di tre anni in cui fu trainata in 90 porti della nazione; nel 1997, in occasione del suo duecentesimo compleanno, riprese finalmente il mare autonomamente.

## P

A USS Constitution é uma fragata pesada com casco de madeira e três mastros da Marinha Americana. Baptizada pelo Presidente George Washington, após a Constituição dos Estados Unidos da América, é o navio de guerra mais antigo do mundo. Lançada em 1797, a Constitution foi uma das seis fragatas autorizadas para construção pela Lei Naval de 1794. Joshua Humphreys concebeu as fragatas para serem os novos navios “capitais” (termo anglo-saxão que designa os navios principais) da Marinha e, assim, a Constitution e as suas irmãs eram as maiores fragatas construídas e as mais fortemente armadas dessa altura. Construída em Boston, Massachusetts, no estaleiro de Edmund Hartt, as suas primeiras tarefas com a recém-formada Marinha dos Estados Unidos foram a de proteger a marinha mercante americana durante a Quase-guerra com a França e derrotar os piratas berberes na Primeira Guerra da Barbéria.

A Constitution é muito conhecida pelas suas acções durante a Guerra de 1812 contra a Grã-Bretanha, quando capturou vários navios mercantes e derrotou cinco navios de guerra britânicos: HMS Guerriere, Java, Pictou, Cyane e Levant. A batalha com o Guerriere deu-lhe a alcunha de “Old Ironsides” e a adoração pública que a salvou várias vezes de combater. Continuou a servir activamente a nação como navio-almirante nos esquadrões mediterrânicos e africanos, e deu a volta ao mundo em 1840. Durante a Guerra Civil Americana serviu de navio-escola para a Academia Naval dos Estados Unidos e transportou trabalhos de arte e exposições industriais para a Exposição de Paris em 1878. Retirada do serviço activo em 1881, serviu de navio de recepção até ser considerada um navio museu em 1907. Em 1931, iniciou uma volta de 3 anos por 90 portos da nação e, em 1997, voltou finalmente a navegar sob o seu próprio comando pelo seu 200º aniversário.

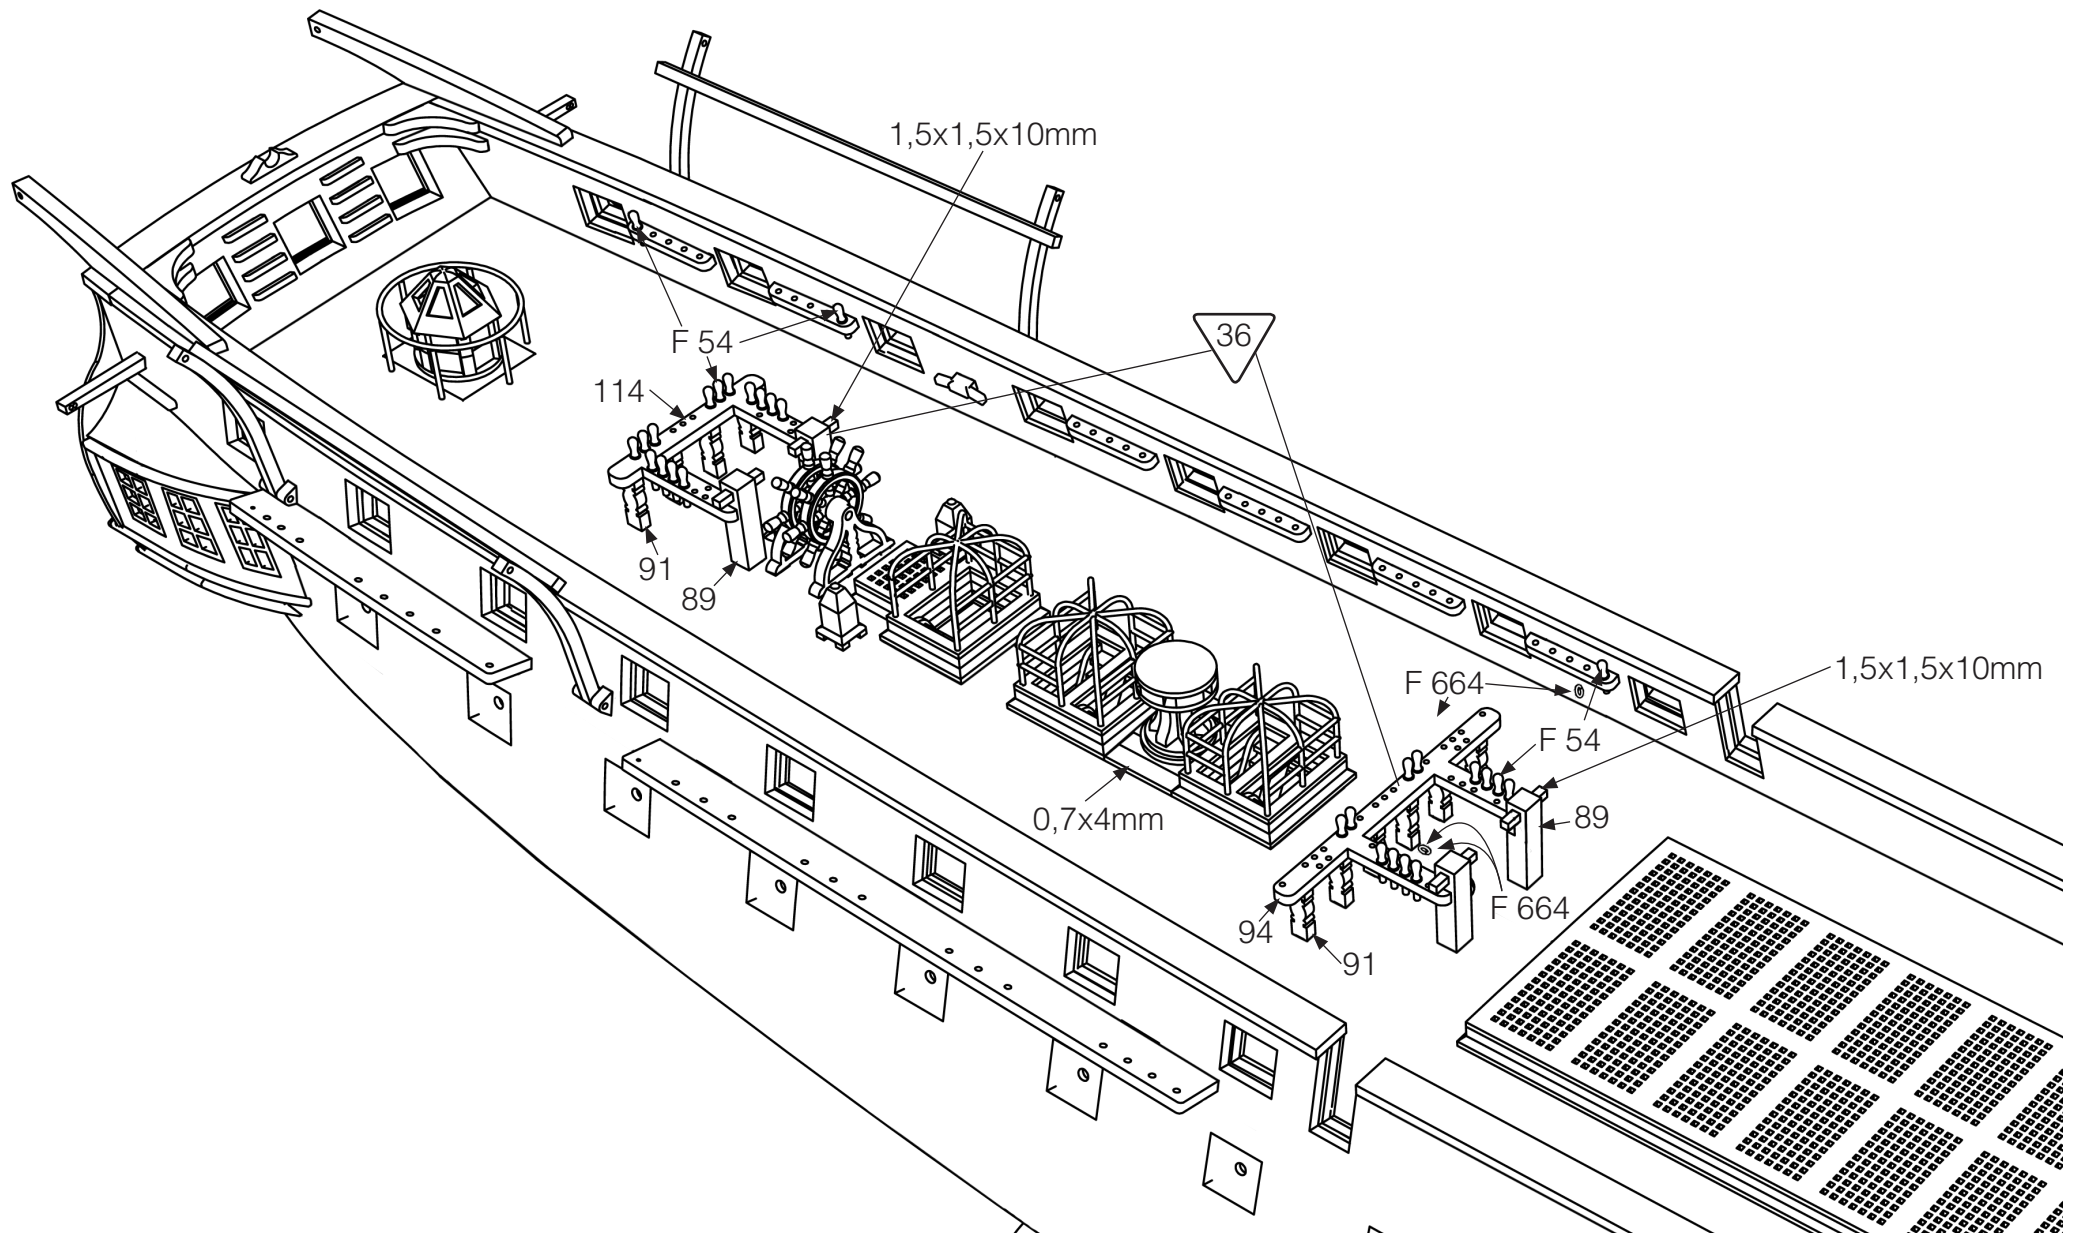

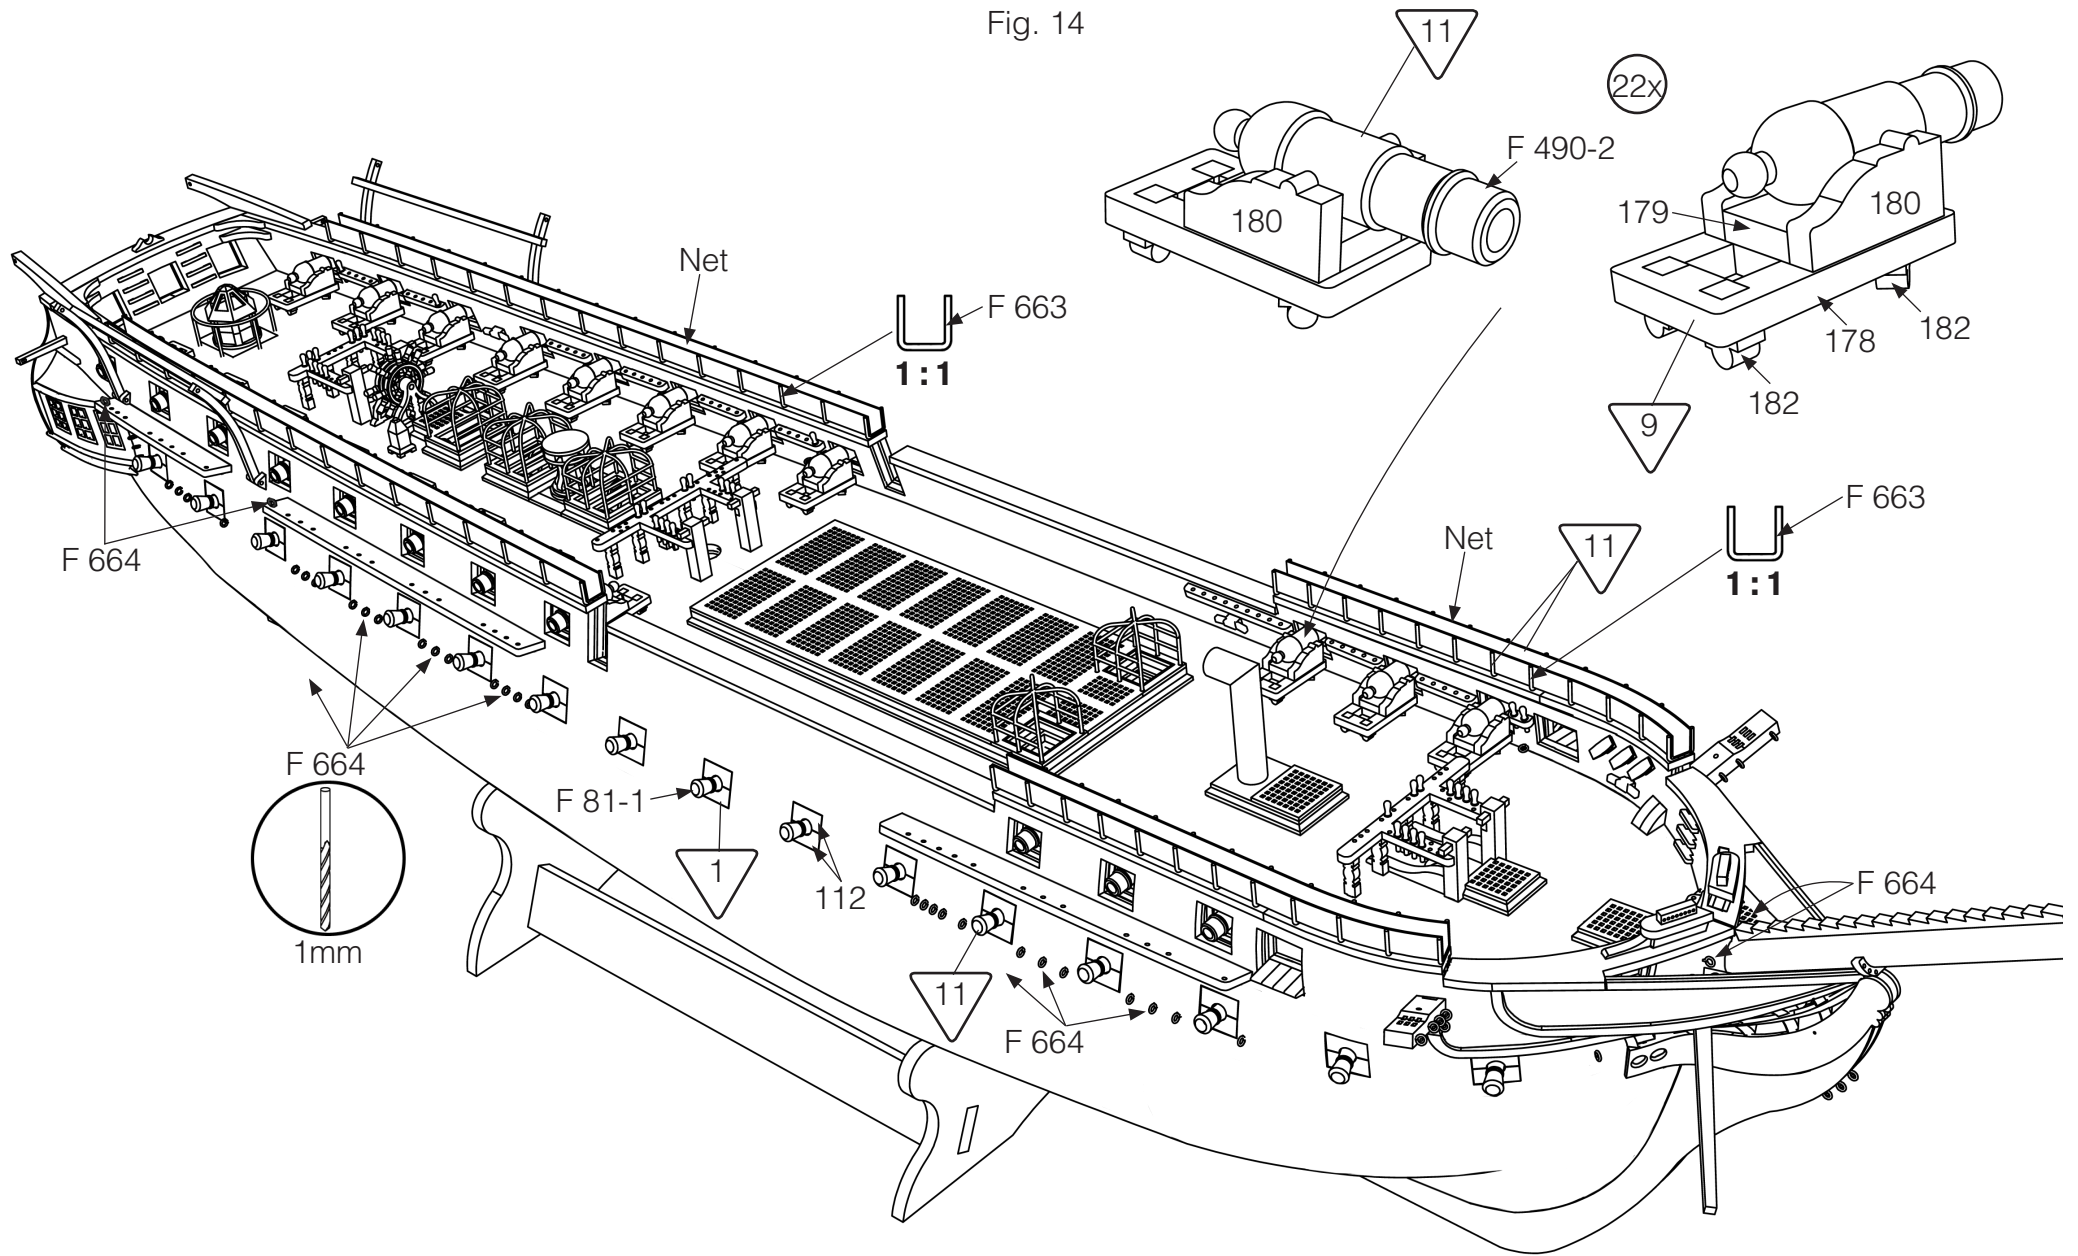

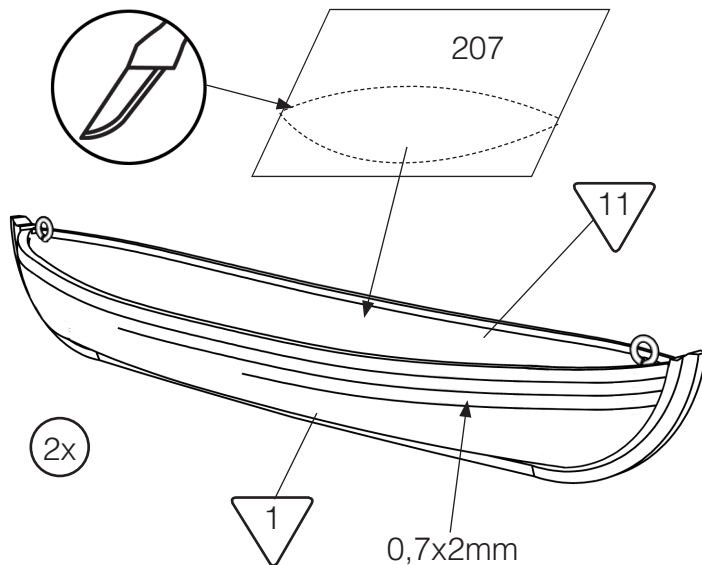

Fig. 14

A detailed technical line drawing of a ship's mast and rigging assembly. The drawing shows the mast, boom, and various pulleys and ropes. The label 'L 20' is used twice: once near the boom and once near the mast base. The drawing is a perspective view, showing the complex arrangement of ropes and pulleys. The mast is the central vertical structure, with the boom extending horizontally from it. The rigging consists of numerous ropes and pulleys, which are used to control the sails. The drawing is a technical illustration, likely for a patent or a technical manual.
